Keep Your Network Safe With ProtectIQ

As viruses and malware become increasingly sophisticated, your network requires an equally innovative solution. ProtectIQ™ helps you keep a lock on your network – and alerts you when any unwanted visitors try to enter.

- **Protect** – Protect all devices on your WiFi network. All traffic that passes through your network is scanned with viruses blocked before you encounter them.
- **Block Malicious Websites** – We analyze the data from thousands of malicious sites – phishing, hijacking, spyware, and malware sites are automatically blocked.
- **Prevent Intrusion** – Using our intrusion prevention system, we prevent cyber criminals from accessing your network, keeping your sensitive information secure.
- **Stay Up to Date** – The ProtectIQ™ dashboard alerts you with network protection updates.
